Founded in 2010, the Worcester County Library Foundation, Inc. exists solely to support and enhance library service in Worcester County. The Foundation has played a key role in supporting Worcester County Library programs and initiatives that support community members through all stages of life.

In 2018, the Foundation was able to contribute over $75,000 to support the library’s capacity to innovate and adapt to the present and future needs of our community.

Over 160 people have joined the Worcester County Library Foundation.

Your annual membership is an investment in the library’s future and we thank you for your support.

Klein Leister-John Staley Scholarship

This scholarship opportunity is open to all Worcester County high school seniors who plan to attend a college or university or who will pursue advanced career and technical education within two years following graduation.

Looking to the Future

The Foundation’s major initiative to support the new Berlin Library project has been achieved and we thank the many people who helped with this accomplishment. Our plans for the future include supporting building enhancements for the Pocomoke branch and an outreach vehicle to help expand awareness of library resources to those who cannot visit the library in person.
